Close in peace that heavenly eye, Seal these lips, no more to sigh; Ne'er to sigh, nor open more, fill the reign of Death is o'er! Breathing lips, and beaming eye, Bright with immortality; Then, these eyes shall beam again— Then, these lips shall join the strain— Hallelujsh!

Let her sently down to rest.
The Soul of Faith upon her breast:
Earth, be faithful to thy trust!
Virtue, blossom in the dust!
Sow in faith, and reap in joy—
The seed no winter can destroy!
Sow in Faith, and kiss the rod—
Earth to earth—the soul to God!
Hallelujah!

MIDNIGHT DISPATCHES LATEST FROM ALL QUARTERS

NEW ORLEANS, December 10 .- The schooner Allison, hence for Boston, ran upon a reef two miles off the Island of Banacco to-day, and became a total wreck. The cargo, principally flour, was saved in a damaged condition. The

crew were saved. Brownsville dates to the 7th state that Canales and his troops have left for the interior, and Cortinus had assumed command of the forces left in Matamoros.

Colonel Crosby, of General Sheridan's staff, had an interview with Escobedo on the 6th, the result of which had not transpired.

Galveston dates to the 6th says the sugar crop of Western Texas is going to Galveston for shipment.

German emigrants are as numerous on the streets of Galveston as before the

heretofore reported, is to be put in command under Escobedo, and to leave for the interior. Cortinus is to command in Matamoros. Generals Escobedo and Sheridan had an interview in Browns ville after their interview with Colonel Crabb.

About fifty penitentiary convicts started overland from Brownsville on the 6th, under the Sheriff, for the penitentiary in East Texas, with an escort of United States regulars.

An election was talked of in Matamo ros, and business was reviving. Some of the goods had gone back from Brownsville, and stores were being reed, but there were fears of ne forced loans.

Both the papers in Brownsville defend and praise Gen. Sedgwick's course.

The Liberal organ in Matamoros says a letter from Talucca of the 12th of November says the French had evacuated San Louis Potosi, but Mejia remained with over one thousand men. The Liberals were some leagues off.

A fire to-night destroyed Abraham Goldsmith's wholesale dry goods store and Bonner's trunk store, on Camp street. Loss, \$30,000. Goldsmith was fully insured and Bonner was partly in sured.

Col. John J. Fisher, formerly an officer in the Mexican army under the government of Comonfort and Jaurez, and recently of the Confederate army, arrived here yesterday. He left the city of Mexico on the 19th ult., and Vera Cruz on the 4th inst. He says a deputation consisting of the clergy and dist tingushed citizens went from the city of Orizaba to meet the Emperor. They were received by him, and the object of the interview was to induce him to change his plans and adhere to the country. The clergy contended for \$15,000,000. The capitalists pledged themselves for a like amout. Maximilian then returned to the capital, there being no interference to his movements by the French. Measures were immediately taken to reorganize the army against Juarez. Gen. Marquis Bazaine has been ordered to the command of the troops at Paebla. Gen-Miramon to Guanaxata, and Gen. Mejia to the Department of San Luis Potosi, embracing the whole section of the country now occupied by the Liberals. Col. Fisher says it was believed there that the arrangements for withdrawing the French troops had been entirely abandoned, and that the Emperor would be sustained by France. Washington, December 10.-The Pres-

ident communicated the Surratt correspondence to day. It relieves Seward from any implications of neglect in the efforts of his arrest.

Welding to Seward, September 27-Says Surratt is expected to arrive, and inclosing the affidavit of Surratt's confi Notice to Cotton Shippers. dant, and giving the particulars of Sur

ratt's leaving and voyage from Canada Surratt confesses to having been in the Confederate service as a mail messenger between Washington and Richmond, and it was at the latter place the killing of Lincoln was concocted by himself and NEW YORK, Booth. He arrived in Canada before the assussination, where he received a communication from Booth announcing a change of programme, and requesting him to come to Washington. He did not say he went, but remarked that on the way back the train was delayed at St. Catherines, where he first heard of the assassination. Surratt replied it was too good to be true. He related a conversa- 115

tion held at Richmond with -.... Affiant believed Surratt to be at Liverpool.

Giddings to Seward, Sept. 20-It is supposed that John Surratt has arrived. Alman advises me that the a-rest is impolitic, under the meager evidence of

Hewster to Welding, Oct. 3-In the conversation with the Secretary of War and Judge Holt, I thought it impolitic to arrest Surratt at present.

King to Seward, Rome, April 30-John Surratt had enlisted in the Pope's Zouaves. He confessed his true name, and acknowledged plotting against Lincoln's life. He declared that he had never seen Davis, but understood that Davis was privy to the plot. King's informant represented that Surratt had plenty of money, and requests the suppression of his name.

Seward to Stanton, May 17-Commu nicates King's letter to Seward, May 19, refers the communication to Holt, who advises them to procure a full statement under oath, which would afterwards be enough for arrest.

Seward to Stanton, May 28-Suggests an obscure extradition treaty with the Pope, and a special which goes to Rome to demand Surratt's surrender.

King to Seward, Rome, June 23 .- Held conversation with the previous informer, which has confirmed his truthfulness, and is headed "Surratt confesses his complicity and his mother's part in the plot." My informant claims having taught school in Maryland. He still desires his name concealed. Surratt was in New York when the tragedy occurred. King to Seward, August 8 .- Explained the affair to the Pope, who expressed his willingness to surrender Surratt.

Seward to King, October 16-Incloses Surratt's photograph and suggests a compensation to the informant, and suggests that both Surratt and the informant be kept in reach.

King to Seward, November 2-Have had an interview with Cardinal Antonelli. Surratt will be given up on proper indictment, if the United States would do likewise under like circumstances.

King to Seward, November 10-Antonelli announces Surratt's arrest, and that he had escaped the guard, and expresses his regret.

Marsh to Seward, Florence, Nov. 18-The Sec. Gen. believes Surratt would be surrendered if found on Italian ground, on the proper demands, proof and identification; and that the punishment of death should not be inflicted. Our Consul at Naples has ascertained that Sur ratt, under the name of Walter, has left Naples for Alexandria, and to arrest him Hale to Seward, December 2-Arrested

John Surratt at Alexandria. Seward to Hale, December 3-Your course is approved. Surratt will be brought home.

Seward to Seale, December 4-The Secretary of the Navy has instructed Commodore Goldsborough to bring Surratt home, and directs Hale to inform Goldsborough.

The Supreme Court did not deliver an opinion on the test oath. Sherwood, of Texas, is here, with the Southern Loyalists, and appeared in Court, requesting that himself and colleagues might be heard, they having new points to offer. He was directed to file his motion.

TRUSTEE'S SALE.—BY VIRTUROF THE authority given me in a Deed of Trust, excuted to me by Ira Moore and wife to secure the payment of notes therein described, I will, at the Courthouse in Raleigh, on Monday, the first day of January, 1807, sell to the highest bidder, one hundred series of land with improvements thereon, near the town of Raleigh, on the Randolph road, now occupied by said Ira Moore, Right of redemption expressly waived.

THALBERG'S OPINION.

"I consider Chickering & Sons' Pianos be-yond comparison, the best I have seen in America. "S. THALBERG, "Chair'n Jury on Musical Instruments." "Chair'n Jury on Musical Instruments."

Among the chief points of excellence of the Chickering Planas, of which speak the renowned artists in their congratulatory testimonials to the Messrs. Chickering, are the greatest possible depth, richness and volume of tone, combined with a rare brilliancy, clearness and perfect evenness throughout the entire scale; and, above all, a surprising duration of sound, the pure and sympathetic quality of which never changes under the most delicate or powerful touch.

During the past forty-three years this firm has manufactured.

30,000 PIANOS. In the construction of which they have intro-duced every known and valuable improvement. They have invariably been selected and used by all of the world's acknowledged great artists who have visited this country professionally, both for private and public use.

THALBEIRG

"I consider Chickering & Sons' Pianos, be-yond comparison, the best. I have ever seen in America." GOTTSCHALK. "I consider Chickering & Sons' Pianos su-perior to any in the world.

"They are unrivaled for their singing quali-ties and for the harmonious roundness of their tone. There is a perfect homogeneity through-out all the registers. The upper notes are re-markable for a clearness and purity which I do not find in any other ins trument, while the base is distinguished for power without harshness, and for a magnificen, so, aority."

"Your Pianos are superior to any I have ever seen in this country or in Europe.
"I have never neard a tone so perfect; it yields every expression that is needed in music, and its quality is tapable of change to meet every sentiment. This is a rare power, and is derived from the perfect purity of its tone, together with its sympathetic, clastic and well-balanced touch." POZNANSKI.

"During the past eight years I have constantly played upon the justly-celebrated Erard Pianos; yours are the only instruments that I have found, either here or in Europe, to equal them in all their points of excellence."

Watson's Art Journal, of Nov. 11, 1865, pays: "Madame Abel performed on the new Chickering Grand, which took the Gold Medal at the Fair of the Massachusetts Onaritable Mechanics' Association, held at Borston last month.

"It is the noblest Instrument we ever heard in a convert room," It may be satisfactor; to our patrons and friends among the public at large te state that testimonials have been received from all the leading artists who have visited or are now residing in the United States.

It is, I consider, not merely the best instrument of American manufacture that I have tried, but one of the finest Grand Piano-Fortes that have ever come under my observation; and the Mesera. Chickering may well be proud of having turned out from their manufactory an instrument which, for tuch, quality, power and workmanship, it would be very difficult to surpass in any part of the wide world.
